BUSINESS ITEMS:

All matters listed hereunder will be acted upon separately and public comment will be held for each item. As a Subcommittee of Thea full Board of Directors, Business Items may include one or more recommendations for further discussion or action at a full Board of Directors meeting.

5. DISCUSSION REGARDING POSSIBLE LOCSD CONNECTION TO THE CITY OF SOLVANG'S WASTEWATER TREATMENT PLANT AND RELATED INFRASTRUCTURE, INCLUDING WSC AND CAROLLO CONTRACTED EFFORTS AND CLOACINA ESTIMATES

The Subcommittee will discuss potential connection to the City of Solvang, including technical and financial issues raised by the potential connection. See the attached draft reports from WSC and Carollo, as well as estimates from Cloacina for a local solution.

GM Savage opens by describing the attachments. The Subcommittee then discusses the three attachments including loading factors, the differences between REGEN and Stantec designs, and rolling up of costs. GM Savage notes that not all the costs shown would be borne by the District, since much of the work would need to be done by the City anyway.

Chair Fayram opens the floor to public comment.

No requests to speak.

GM Savage asks if there is anything else the Subcommittee would like to see in the documents or as follow up. Director Fayram comments that there is some more clarification about what percent of the burden is based on the District's flows as opposed to work that would have to be done anyway. He would also like to see an Executive Summary on the WSC document. The Subcommittee then talks about cost sharing with the City and what is driving each of the four impacts. GM Savage notes during his commentary that he is meeting with SYCSD later today.

6. GENERAL DISCUSSION OF COLLECTION, TREATMENT, AND DISPOSAL OPTIONS

The Subcommittee will discuss options for the collection, treatment, and disposal of wastewater for the District. Given the Regen contract, this discussion will focus heavily on Treatment options, including Membrane Bioreactor (MBR), connection to Solvang's treatment plant, and other solutions previously brought up by members of the public.

Director Parks asks about the contracts for the line to Solvang. GM Savage responds that the full Board directed that he put together the proper contract with Stantec. GM Savage points out that there could be a piece that is not included in the pieced-together 30% designs. As an example he suggests that nobody has costed a piece of land for an equalization tank. Director Fayram then comments that he has requested a meeting with the new County of Santa Barbara Public Works Director and they met so the new Director could have an overview of what the District was doing; and find out if there was anything the District needs to know related to putting a line down Alamo Pintado.

Chair Fayram opens the floor to public comment.

No requests to speak.

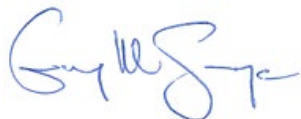

7. ADJOURNMENT
